How to order lamps from **RAB**

Our model numbers are easy to build and understand. Simply choose from the descriptions below each section of a matrix as seen below, and be sure to include any hyphens shown. No confusing, company-specific coding. Just basic logic that continues to "make it easy" for you.

A-LINE BULBS

A-Line Bulbs | Dimmable & Non-Dimmable

A-line bulbs replace conventional halogen and incandescent bulbs. RAB offers a variety of A-lines for use in commercial and residential applications.

These omnidirectional, frosted bulbs are available in both dimmable and non-dimmable models, and come in several wattages, CCTs, and bases. An 80 CRI rating makes them ideal for general lighting use.

FEATURES

- 15,000-Hour lifespan**
Up to 13.7 years at 3 hours per day
- Damp rated**
Suitable for damp locations
- Use anywhere**
Suitable for use in enclosed fixtures³

Color Temperature

¹ The RAB No-Compromise warranty covers light output, color stability, driver performance and paint finish. RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty.

² Margin of error +/-10%

³ 100W A19 E26 and 100W A19 GU24 can only be used in open fixtures.

A-Line Bulbs | Premium Dimmable

Premium, dimmable A-line bulbs also replace halogen and incandescent bulbs, but have a longer lifespan and a higher, 90 CRI rating.

Our premium A-lines feature a 230° light distribution for omnidirectional light output, and a longer, 25,000-hour lifespan. Their 90 CRI produces rich and vibrant colors, making them perfect for color-critical applications in residential and retail spaces.

DIMENSIONS

Decorative | Premium Clear & Frosted Filament

RAB decorative lamps were designed with both form and function in mind—they look just as great as they perform. Decoratives are available in classic designs with either exposed filaments or frosted finishes, that simulate the appearance of the conventional lamps they replace.

Transform indoor spaces with energy-efficient, low-wattage alternatives to incandescent lamps. These decorative LED lamps maintain that warm glow traditionally found in candelabras and medium-base fixtures while drastically reducing relamping expenses and labor. Exposed filament models offer an added aesthetic, and the 90 CRI rating produces rich, vibrant colors.
