Illuminate the Future with Tangra

An Elevated Experience by Lotus LED Lights

For over 15 years, Lotus LED Lights has been leading the LED lighting innovation in North America, delivering high-performance products that redefine quality and design. Building on our legacy as pioneers in recessed LED lighting, we're proud to introduce our premium new line: Tangra.

Tangra is a bold step forward - a fusion of technical precision and design sophistication. Engineered for an elevated lighting experience, each fixture is crafted from the finest components, featuring ultra-high 98 CRI options that bring true-to-life vibrancy to any space. Colors appear more vibrant, textures more vivid, and spaces more alive.

Designed with luxury in mind, Tangra trims are available in refined finishes to complement upscale interiors. Interchangeable beam angles offer designers and installers the flexibility to sculpt light precisely where it's needed, while our power switchable LED drivers ensure optimal performance and versatility across applications.

With Tangra, Lotus LED Lights isn't just lighting your space - we're lighting your future. We invite you to experience the next level of lighting innovation, where elegance meets performance.
