

PRODUCT DESCRIPTION

A bold and timeless sconce, Dorian features a sleek, square block support with two cylinder LED tubes horizontally extended. These tubes rotate individually to allow the LED light unique positioning. The collection features linear and vertical pendant configurations with slender profiles that offer enhanced visibility. The elongated vertical pendants are perfect to light lofty spaces. Their rotatable extensions direct the light along areas such as stairwells and can highlight artwork and collectible displays at taller heights. The wall-mounted sconces offer similar features with additional streamlined back plate designs that mounts to either a single gang junction box or common 3-0 or 4-0 boxes with cover plate included. These sconces suit light portraits, shelves, or work as bath vanities. They extend less than four inches in compliance with ADA standards. Available in Matte Black, Polished Chrome, and plated Gold, this collection is a subtle, handsome design with timeless appeal.
