

PRODUCT DESCRIPTION

Squares of Satin White glass are supported by flat Polished Chrome end caps with an extruded aluminum frame. Housed on the backside of the LED vanity light is a device to select from 5 color temperatures: 2700k-3000k-3500k-4000k-5000k. A dual mounting backplate allows for the fixture to seamlessly install to a switch box making the glass appear as if floating on the wall. An additional mounting bracket and cover plate is included in the packaging to accommodate larger junction boxes. Enhancing these features with a range voltage 120-277V input, makes this heavy hitting note land squarely into specification requests as well as the home improvement do-it-yourselfer.
